Dear Herr Schwantje,

It is a continued pleasure and interest to read the Mitteilungen of your Bund, which you are good enough still to send me, and which, I am delighted to see maintains its high standard, ~~month by month~~.

It was particularly gratifying to see the Manifesto against Conscription in the December issue, such utterances are sadly needed at this juncture, when rumours and threats of war are filling the air. It seemed to me worth while to get a translation thereof sent in to the New Statesman, and I feel sure you will be glad to see that it was accepted and occupies quite a prominent position in ~~what is still~~ one of our leading weekly journals. I enclose ~~herewith~~ a copy of the paper (under separate cover)

You may be interested to know that I have lately been concerned, with a number of my fellow humanitarians in the foundation of a Society for the Abolition of Cruel Sports

-tion of blood-sports, and as I am for the present acting as
Honorary Secretary, my time is very heavily occupied, not only
with the ever-increasing correspondence, but with the editing
and preparation of pamphlets and other literature for circulation
and with the inevitable details of organization entailed by a
Society such as ours. We are attracting to our ranks I am glad
to say, not only animal welfare workers, but men and women from
many other spheres - poets, writers, scientists, artists, naturalists
etc etc.

Hoping that this letter finds you in good health,
and wishing you every success in your work during the coming
year,

I remain yours sincerely,

Bertram Lloyd

Honorary Secretary

P.S. I am glad to see that
your excellent collection
Die Liebe zu den Tieren
is still being circulated.
